

Source of Motor Peg Sleeves

by Jim Bailey, as published in the July/Aug 2005 issue of the Flying Aces Club News

Motor peg sleeves, good stiff ones of various sizes can be found round your home in all kinds of spray bottles. Wash Thoroughly, cut and enjoy! (Ed. Note: Many of the spray bottles have very small pick-up tubes. The plastic pump bottles which dispense soap are much larger.) (Ed. Note: These sleeves, when inserted over the rear rubber motor peg go a long way to prevent bunching of the rubber in the tail of the model — tending to play havoc with that Max.)
